

Resources for Trainees

The information below will help you keep you up-to-date with educational and regulatory requirements for clinical research.

We regularly host a variety of specialized research training events, including clinical research “Lunch and Learn” sessions for study staff, research ethics tutorials, and Clinical Research Professional Development workshops. Please visit our [Events](#) page for a list of upcoming training opportunities.

Clinical Trial Guidance Documents

- [International Conference on Harmonization \(ICH\)](#)
- [U.S. FDA Guidance for Industry](#)
- [Health Canada Division 5](#) [PDF]
- [Research Ethics at PHCRI](#)
- [Additional Forms and Templates](#)

Our [Clinical Research 101](#) series takes an in-depth look at key steps and tips for navigating the clinical research process.

Clinical Research Training

Good Clinical Practice (GCP):

- [CITI via Network of Networks \(N2\)](#) (You will need to sign up for an account to access the training modules)

Ethics/Human Protection:

- [Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans](#)
- [National Institutes of Health \(NIH\): Protecting Human Research Participants](#)

Educational Events and Workshops

- [CHÉOS Events Calendar](#)
- [Clinical Research Professionals of B.C. Speaker Series](#)
- [UBC Graduate Pathways to Success Workshops](#)
- [UBC Faculty of Medicine Postdoctoral Professional Development Workshops](#)
- [Additional Forms and Templates](#)
